

LOGO TOP-MENU How it works v How to use v Who I am v About
 HYPERLINKS + DROPDOWN (combination) Home switch

small side doors → hyperlink to try it now
 home-presentation → scroll down → hidden up → shown top of page → heavy?

spread sheet → .5 seconds to click → redirection to try if not after → drop down menu, now please redirection

how do links work?

nice color superscript → pale blue? look into it

title
valcheck.ai

A lightning fast mathematical evaluation operator

left center 60% 40% center center

stick as FUCK animation

⇒ Use it now

hyperlink to model

center center

How it works

1. Individual symbol recognition

- ↳ pytorch
- ↳ brang dataset
- ↳ resources

GIFS, IMAGES, LINKS

GIL

2. Agency order, expression constructor

GIL

3. expression evaluator and other

GIL
